

Greetings to the Planned Parenthood team,

I'm applying for the Director of Digital Products role. I've been supporting mission-driven organizations since 2001 and currently serve as Director of Digital Products at Green America. My main focus over the last fourteen years has been solving increasingly complex challenges around technology, access to information, and building products and services that *make a positive difference*. I've delivered the following large-scale redesign and refactoring website projects for national and international organizations and government agencies: changemakers.com redesign (for Ashoka: Innovators for the Public), gistnetwork.com redesign (for Global Entrepreneurship Network and the U.S. Department of State), and most recently, greenamerica.org and greenbusinessnetwork.org redesign (for Green America). Additional past roles include:

- **strategic integrator** - understands and aligns needs of client, partners, internal team, technology resource people and products, and policy/content managers in order to support a successful outcome
- **engineering manager** - manages workflow for groups of 5-10
- **data architect** - responsible for database requirements (in conjunction with client), user pathways, database design, optimization, and modeling, and "big-picture" thinking about client requests to tickets
- **project lead** - communicative, patient, timeline-oriented, manages teams
- **product manager** - functional specifications, wireframes, user pathways, analytics and reports
- **full stack developer** - PHP/mysql since 2001, Drupal since 2008, Agile/scrum since 2012

My overall career plan has been a continuous improvement on processes to build and align teams, gain clarity, and be measurably effective in reducing inefficiencies. My particular focus is on supporting national and global teams that do a combination of: offering connections and resources, building community and targeting donors/members through running campaigns, evaluating submissions to competitions, and overall marketplaces to connect different groups, i.e. founders with investors, campaign managers to action-takers.

Some career highlights:

- June 2016 - present: Digital director for GreenAmerica.org redesign (\$215k Drupal 8, 16% increase in direct visits, 80% increase in referral visits, 39% increase in email signups, 1 million annual users)
- October 2017 - present: Course faculty, Nonprofit Technology Network (NTEN) for Nonprofit Technical Professional Certificate - "Develop Good Data Practices" and "Building a Culture of Diversity and Inclusion"
- January 2016 - May 2018: Database architect / lead engineer for GistNetwork.org redesign, US Department of State-funded international entrepreneurship challenge for Global Entrepreneurship Network (\$560k Drupal 7)
- May 2014 - December 2016: Team lead for platform redesign of Changemakers.com offering competitions and resources in global social enterprise (\$180k Drupal 7, 85k monthly users)
- 2004-2014: Principal producer over 10+ years of working with public agencies, membership groups, and businesses (240+ websites in Drupal 6 and 7, PHP/LAMP stack)
- 2001: Core team, Odyssey Internet Treks, team leader to Mexico pilot, visiting 35 countries in 18 months, creating educational K-12 curriculum content online
- Written three trade ebooks on building community through website engagement strategies, and I also blog, post articles, and speak on panels, videos, and podcasts

Please email me at monicasflores1@gmail.com to set an appointment, or call my direct cell 858-249-8773 if you'd like additional information.

Sincerely, Monica S. Flores

OVERVIEW

- + **Mission:** to build community, foster connectedness, & use my tech skills to create a better world
- + **Unique skill:** translating business process needs into effective solutions, building measurable features to solve pressing problems, communicating across and within teams to drive long-term initiatives
- + **Turns ideas into reality:** clarifies needs, develops plans, tests assumptions, implements production
- + **Drives progress:** understands goals, leads efforts, tracks schedules, explains documents
- + **Manages teams:** builds cohesion around a shared goal, breaks down process, drives delivery

DIGITAL EXPERIENCE

Director of Digital Products, Green America (Washington, DC) June 2016 - present

Consolidates all existing websites and builds out a new platform to manage the organization's digital properties, including quarterly magazine, print publications, a national network of green businesses, and several content-focused sites on Wordpress, Joomla, ColdFusion, and more (\$215k Drupal 8, 16% increase direct visits, 80% increase referral visits, 39% increase email signups, 110k monthly users)

- Leads in-house ongoing web needs, with access to and oversight of external contractors
- Evaluates new product requests, runs agile process to implement new features
- Develops all database architecture, functional specifications, timeline, deliverables list
- Works with staff to maximize search engine optimization
- Synthesizes needs & requirements from internal/external stakeholders into cohesive product roadmap
- Ensures that internal stakeholders have support to successfully learn and use digital technologies
- Responsible for budgeting for technology needs as well as tracking expenses to budget
- Manages external resources and timelines to balance requirements against ROI
- Pulls together input from users, executive leadership, staff with content expertise, and online communications team, and turns these into a thoughtful and coherent vision and strategy for digital

Drupal 8, Agile, Salsa, Raiser's Edge, Charity Engine, Wordpress, ActOn, Joomla, Google Suite, Pantheon, Git, Trello

Lead Software Engineer (Consultant), GIST Network (Washington, DC) January 2016 - May 2018

Identified and specified all architecture and technical features for a redesigned platform to support international entrepreneurship, funded by the U.S. Department of State (\$560k Drupal 7, 8000+ users)

- Worked with former providers to identify and specify unified fields from a legacy platform to Drupal 7
- Specified architecture and implementation for competition, competition entries, bootcamp participants, events, pages, resources, organizations, and informational posts
- Documented and assigned user roles and permissions
- Set scrum goals, led development, liaised with multiple stakeholders
- Provided feedback and guidance to 6-person engineering team during buildout
- Worked with end client and development team to deploy a working redesigned site in tight timeframe

Drupal 7, Agile, ActiveCollab, Balsamiq, Pantheon, Acquia, Git, SFTP, Sublime

Product Team Lead, Ashoka Changemakers (Arlington, VA) February 2014 - December 2016

Led team for redesign and refactoring of a Drupal 7 site, implemented scrum for 3-person team, supported 40+ coordinators, managers, operations, & exec. leaders (\$180k Drupal 7, 85k monthly users)

- Identified functional specifications, evaluated potential solutions, installed/wireframed/themed site
- Views, content types, reports, documentation, and training for multiple levels of users

Firebug, Analytics, Slack, Jira/Fisheye, Confluence, SequelPro, drush, Sublime, Git, TeamworkPM, Skype, Hangouts, PHP/MySQL, Google Drive, UXPin, LucidChart, Salesforce, Pantheon, Trello, Assembla, localization/translation
